

Netherlands MOA & Team Activities

Status:

In Progress

IWR Contact:

Paul Bourget (Paul.G.Bourget@usace.army.mil)

Purpose:

The Dutch Rijkswaterstaat (RWS) and the US Army Corps of Engineers (USACE) signed a Memorandum of Agreement (MOA) in May 2004. The scope of that agreement encompasses collaboration in research, development, testing, and evaluation potentially leading to new and/or improved civil works capabilities between the two countries. Following the signing of the MOA a strategy was implemented to focus the exchange along practical lines that were mutually beneficial.

Objective:

The following six specialty (cluster) areas were formed with co-leaders from both countries serving on each: - Flood control and flood protection -Coastal zone management - River basin management -Shipping and transport -Dredging -Infrastructure management

Benefits:

To make joint improvements in the previously enumerated specialty areas.
